

Akshaya Manne

7396744331 | akshuchowdary23@gmail.com

Objective

Highly motivated software developer with a strong background in Python and MySQL . Proven ability to develop and deploy web and mobile applications. Passionate about learning new technologies and solving real-world problems.

Experience

- I Hub** September 2023 - May 2024
Student intern
Contributed to projects using python and full stack development.
Applied machine learning concepts to real world problems.
- Infosys/ Springboard** July 21 - July 26
Student intern
Completed "Introduction to Python" on Infosys Springboard – learned Python basics including variables, loops, functions, and file handling with hands-on practice.

Education

- PEN SCHOOL** 2020
SSC
8.8
- Narayana junior college** 2022
MPC
7.0
- Andhra University college of engineering** Pursuing
Computer science of engineering
7.17

Skills

- Programming language: Python, C
- Data Base : MYSQL

Projects

- Patient pulse**
Synopsis:
Patient pulse is a healthcare web and mobile application designed to provide remote doctor consultations. It offers features like appointment bookings, real-time video calls, digital prescription management, health tracking, and secure payments bridging the gap between patients and healthcare providers virtually.
❖ Distinguishing Attributes:
 - Real time video consultations using WebRTC.
 - Health Tracking dashboards with visual insights.
 - Role-Based access for patients, doctors, and admin.❖ Technology Used:
 - Frontend: React.js(web), React Native(mobile)
 - BackEnd: Node.js with Express.js
 - Payments: PayPal❖ Core Competencies:
 - Full-Stack web and mobile app development
 - API design and cloud deployment
 - Secure data handling and compliance
 - Real time communication systems

- **Smart phones market**

- ❖ Synopsis:

- Studied Smart phones brands like Apples, Samsung, and Xiaomi. And find out what features customers care about (like camera, battery and 5g).

- ❖ Technology used:

- Excel or Google sheets
 - Python (optional, for deeper analysis)

- ❖ What I Learned:

- How to collect and clean data.
 - How to understand what the data shows
 - How to study market trends
